Re: Marsing Water Rights

Dear Kris:

According to Bob Davis, the Price River Water Commissioner, the golf course has been using the Marsing water right to irrigate the golf course. As I have tried to explain in the past, prior to this taking place, a Change Application must be approved by this office to correct the point of diversion and place of use of this water. As a result, any water that you have pumped to date from the springs will be charged to you as reservoir water. Therefore, let me encourage you, or someone representing the Country Club, to come to the office and file the appropriate paper work to legalize the intended use.

I would be happy to meet with you as my schedule will allow, and at your convenience. Your cooperation in resolving this matter is appreciated.

Sincerely,

Mark P. Page  
Regional Engineer
